The City of Alma is proud to announce the launch of our new CodeRED notification system to send important alerts and time-sensitive messages to our residents. Along with emergency and critical messages, the CodeRED notification system can also enhance our community engagement via the release of important but non-emergency information ranging from road closures and trash collection schedule changes, to snow plow schedules and other City services.

Registration for this notification service is customized, allowing residents to choose which alerts they'd like to sign up for and how they would prefer to receive them. Residents can choose several different methods: landline, cell phone, email, text message, TTY, or even a combination. These alerts can be specific to streets, neighborhoods, or regions so that residents in affected areas are sure to receive this valuable information.

Additionally, residents and visitors alike can keep track of alerts in Alma with the CodeRED Mobile App, which notifies smartphone holders of real-time alerts in the area. Similar to the online registration, users choose which notifications they'd like to receive via the app. Authorized City of Alma personnel will have access to the ECN Launcher - an app that allows officials to create and send messages on the go from any smartphone or tablet within seconds, without requiring a computer.

All residents are encouraged to visit https://public.coderedweb.com/cne/BF50F65661C0 to sign up for CodeRED and immediately start receiving these informative, life-saving alerts. For more information on the CodeRED notification system or registration, please contact the City of Alma office at 308-928-2242 or email cityclk@almacity.com.

The City of Alma Alert System in not affiliated with the Harlan County CodeRED system. The City of Alma Alert System will only send alerts concerning the City of Alma. The Harlan County CodeRED system alerts of emergency nature and weather alerts. It is highly recommended you sign up for both of these services. To sign up for alerts from Harlan County, visit https://public.coderedweb.com/cne/en-US/BF8EA055547E

About Emergency Communications Network

Headquartered in Ormond Beach, FL, Emergency Communications Network (ECN) is one of North America's largest providers of emergency notification and mass notification systems. ECN provides two primary services: CodeRED, for state and local government entities to deliver emergency and general messaging to residents in specific geographic areas; and, SmartNotice for staff and customer notification - an essential tool for business continuity and disaster recovery. ECN's technology solutions are used each day to effectively alert, inform, and save lives across the U.S. and Canada. To learn more, visit ecnetwork.com.
